## **Skipper / Vessel Master Wanted | UK-Flagged Vivier Crabbers**

LevEmun Group is built around real fishing operations, not theory. We support active UK-flagged vivier crabbers operating under UK fishing licences in authorised EU fishing areas, and we are now expanding our Skipper / Vessel Master pool for two under-20m crab fishing vessels.

We are also developing a future adaptive hybrid crabber prototype, designed to improve sea-keeping, deck safety, vessel efficiency, and long-term fuel resilience. For the right skipper, this is more than a trip-by-trip role — it is an opportunity to help shape a stronger, safer and more professional future pot-fishing operation.

### **Rotation**

We believe a tired skipper is a liability. Our target structure is a fairer and more sustainable rotation, such as one month onboard / one month at home, subject to experience, certification, availability, and operational requirements.

### **Who we are looking for**

We are seeking professional Skippers / Vessel Masters with strong pot-fishing experience.

Preferred backgrounds include:

- crab;
- lobster;
- langoustine/prawns;
- whelks;
- octopus;
- other pot-based fisheries.

Candidates should have strong practical ability in gear handling, safe deck operations, crew leadership, catch quality, vessel care, maintenance awareness, and clear onboard reporting.

### **Certificates and compliance**

Relevant MCA certification, valid medical certification, and mandatory fishing vessel safety training are expected, depending on vessel, operating area, and command responsibility level.

### **What we offer**

- Fair basic pay;
- Transparent catch-related bonus opportunities;
- Vessel-care and responsibility incentives;
- Full shoreside operational and technical support;
- Long-term cooperation potential;
- Opportunity to provide practical input into future vessel improvement and prototype development.

We are ready to appoint suitable qualified candidates without unnecessary delay. Applications will be reviewed as received.

Please send your contact details, experience, certificates, availability, sea-time summary, and references to:
